Investment Philosophy

A privately-held firm, ARS Investment Partners, LLC ("ARS") operates as a traditional partnership, advising on \$1.7 billion in assets. We view the market as a medium of exchange with inherent inefficiencies, allowing us to seek out uncommon value and the opportunity to deliver absolute returns regardless of market direction. As students of the markets, we act with a conviction borne out of rigorous research. We are investors, not traders, and independent research is fundamental to our work. We assess the economic, social, and political environment, identifying sectors in the economy that we believe will thrive and to which capital will flow. We evaluate companies on an enterprise value basis, as if we were purchasing the entire company, and look for identifiable earnings growth catalysts that can offer significant absolute returns without excessive risk.

Investment Approach

We believe market inefficiencies create mispricings and undervaluations which can be substantial in smaller capitalization stocks. We employ a private equity valuation approach in assessing public market equities to identify U.S. micro- to small-cap companies with capitalizations typically ranging from \$100mm–\$2.5 billion trading at discounts of 50% or more from intrinsic value. Our research begins with analyzing important secular trends and identifying areas in the economy that will thrive and to which capital will flow. To identify undervalued small cap companies, we integrate fundamental analysis of various metrics, such as cash flow, earnings per share and EBITDA. We also consider less conventional measures, such as hidden assets, strategic value, and earnings power masked by company specific issues. Once we have identified a specific opportunity, but before we establish a position in the stock, we identify catalysts that could cause the company's stock price to align more closely with its intrinsic value and develop a strategy to close the valuation gap.

Definition of the Firm – ARS Investment Partners, LLC (“ARS”) was originally founded as A.R. Schmeidler & Co., Inc. in 1971 and is majority-owned by Artemis US Corporation. Artemis US Corporation is 100% owned by Artemis Corporation, an Ontario, Canada entity, which is in turn 100% owned by Artemis Investment Management Corporation, a financial services firm headquartered in Toronto, Ontario, Canada. Mr. Miles Nadal is the controlling shareholder of Artemis Investment Management Corporation. ARS is a registered investment adviser under the Investment Advisers Act of 1940. ARS Investment Partners, LLC claims compliance with the Global Investment Performance Standards (GIPS) and has prepared and presented this report in compliance with the GIPS Standards. ARS Investment Partners, LLC has been independently verified for the periods 1/1/2000 through 12/31/19. The verification report(s) is/are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of GIPS standards on a firm-wide basis and (2) the firm’s policies and procedures are designed to calculate and present performance in compliance with GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. Benchmark returns are not covered by the report of independent verifiers. Management believes that the returns prior to 2000 are accurate, but due to a lack of firmwide client data, GIPS compliance cannot be claimed prior to 1/1/2000.

Benchmark Definitions – The Russell 2000® includes approximately 2,000 of the smallest securities based on a combination of their market capitalization and current index membership. The Russell 2000® is constructed to provide a comprehensive and unbiased small-cap barometer and is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set.

Composite Definitions – ARS Focused Small Cap invests in companies with market capitalizations typically ranging from \$100 million to \$2.5 billion. The portfolio is long biased, aiming to control risk via cash levels, prudent shorts, inverse ETFs and option strategies. This composite was created in July 2018. Net returns are calculated using a 1.25% model fee.

Investment Management Fees – The investment management fees that apply to the portfolio composites are as follows: Equity Accounts which include the ARS Core Equity, ARS Focused All Cap, ARS Focused Small Cap & ARS Tactical Asset Allocation (ARS Balanced Strategy & ARS Equity Strategy) – 1.25% per annum of the first \$1 million and 1.00% per annum of the next \$20 million and to be discussed thereafter. The management fees for certain clients may differ from the above schedule because those clients’ fees are grandfathered or because of relationships with the applicant or other accounts. For institutional accounts, certain asset or fee minimums may apply.

Internal Dispersion – Internal dispersion is calculated using the asset-weighted standard deviation of annual returns of all portfolios in the composite for the entire year. Dispersion is not presented for periods less than one year or when there were five or fewer portfolios in the composite for the entire year. The Annualized 3-Year Standard Deviation is not presented for composites with less than a 36-month return. Also, the standard deviation is not presented and not is required, for periods prior to 2011.

Basis of Presentation – Rates of return presented are computed using a time-weighted rate of return methodology that adjusts for external cash flows. Total rate of return calculations includes realized and unrealized gains and losses, plus income, and cash and cash equivalents held. Gross performance returns are presented after transaction costs and before investment management fees and all operating costs. Net performance returns are presented after transaction costs and actual investment management fees and before all operating costs. However, gross performance for the ARS Core Equity Composite is presented as gross and net performance is actual investment management fees and after all operating costs and the gross returns are presented as supplemental information. Operating costs include custodian and administrative fees. Additional information regarding policies for valuating portfolios, calculating performance, and preparing compliant presentations are available upon request. Performance results for periods of less than a year are not annualized.

Performance returns are in U.S. Dollars. Periodic returns are geometrically linked. The composite rates of return have been calculated within ARS Investment Partners, LLC. A complete list and description of the composites managed by ARS is available upon request.
