Investment Philosophy

A privately-held firm, ARS Investment Partners, LLC ("ARS") operates as a traditional partnership, advising on \$1.7 billion in assets. We view the market as a medium of exchange with inherent inefficiencies, allowing us to seek out uncommon value and the opportunity to deliver absolute returns regardless of market direction. As students of the markets, we act with a conviction borne out of rigorous research. We are investors, not traders, and independent research is fundamental to our work. We assess the economic, social, and political environment, identifying sectors in the economy that we believe will thrive and to which capital will flow. We evaluate companies on an enterprise value basis, as if we were purchasing the entire company, and look for identifiable earnings growth catalysts that can offer significant absolute returns without excessive risk.

Investment Approach

We seek to identify the best-positioned and undervalued companies across market capitalization ranges and include investments characterized as growth and/or value in their orientation. Our primary goal is to build the purchasing power of portfolios over time. Our Focused All Cap philosophy is to buy the most assets, cash flow and earnings for the fewest dollars, among leading companies that stand to be the beneficiaries of global capital flows. We prioritize industries that benefit the most from the strongest secular trends and avoid those with the greatest secular headwinds. This often leads to industry and sector allocations that diverge from that of market indices. We then select businesses we believe are poised to benefit from these trends, with the greatest margin of safety in their valuations. The strategy's portfolio construction process is not limited by guidelines such as capitalization size or individual stock and sector weightings of a benchmark, allowing the best investments to flourish.

Annualized Performance

(period ending October 31, 2021; inception January 21, 1993)

	MTD	QTD	YTD	1 Year	3 Year*	5 Year*	10 Year*	Inception*
Gross of fees	4.39%	4.39%	16.79%	38.17%	24.43%	20.63%	13.28%	12.47%
Net of fees	4.30%	4.30%	15.77%	36.72%	23.12%	19.41%	12.29%	11.07%
Russell 3000	6.76%	6.76%	22.77%	43.90%	21.62%	18.91%	16.10%	10.71%

Sector Weights (%)

These holdings are supplemental information to the GIPS-verified presentation. Past performance is not indicative of future results. Performance results reflect the reinvestment of dividends and income. Performance data for both gross and net of fees reflect the reduction of transaction costs. Net of fees reflects the deduction of advisory fees. The investment advisory fees are described in Part 2A of the Form ADV. Index information is provided for illustrative purposes only. Indices are unmanaged, do not incur expenses and are not available for direct investment. **Price/Earnings Ratio (FY1):** Stock price divided by the future 12-month earnings per share estimate, excludes negative earnings. **Price/Cash Flow Ratio:** Stock price divided by the trailing 12-month cash flow per share. **Dividend Yield:** Dollar amount of last quarterly dividend multiplied by 4, divided by the stock price. **Est 3-5 Year EPS Growth:** The 3-5 year estimated earnings per share growth. **Wtd. Average Market Cap:** Market capitalization of each security weighted by its size in the portfolio. **Market capitalization definitions:** Large Cap >\$10 billion; Mid Cap \$2.5-10 billion; Small Cap <\$2.5 billion. Style / Market Capitalization, Top 10 Equity Holdings and Sector Weights are as of 10/31/2021 and are subject to change. A list of all of the holdings is available upon request. See additional Disclosures on the following page.

Disclosures

Past performance is not indicative of future results.

Definition of the Firm – ARS Investment Partners, LLC (“ARS”) was originally founded as A.R. Schmeidler & Co., Inc. in 1971 and is majority-owned by Artemis US Corporation. Artemis US Corporation is 100% owned by Artemis Corporation, an Ontario, Canada entity, which is in turn 100% owned by Artemis Investment Management Corporation, a financial services firm headquartered in Toronto, Ontario, Canada. Mr. Miles Nadal is the controlling shareholder of Artemis Investment Management Corporation. ARS is a registered investment adviser under the Investment Advisers Act of 1940. ARS Investment Partners, LLC claims compliance with the Global Investment Performance Standards (GIPS) and has prepared and presented this report in compliance with the GIPS Standards. ARS Investment Partners, LLC has been independently verified for the periods 1/1/2000 through 12/31/19. The verification report(s) is/are available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of GIPS standards on a firm-wide basis and (2) the firm’s policies and procedures are designed to calculate and present performance in compliance with GIPS standards. Verification does not ensure the accuracy of any specific composite presentation. Benchmark returns are not covered by the report of independent verifiers. Management believes that the returns prior to 2000 are accurate, but due to a lack of firmwide client data, GIPS compliance cannot be claimed prior to 1/1/2000.

Benchmark Definitions – The Russell 3000® measures the performance of the largest 3,000 US companies representing approximately 98% of the investable US equity market. The Russell 3000® is constructed to provide a comprehensive, unbiased and stable barometer of the broad market and is completely reconstituted annually to ensure new and growing equities are included.

Composite Definitions – ARS Focused All Cap includes all fee-paying, discretionary institutional portfolios managed by ARS in a Focused All Cap strategy with an absolute return-oriented focus having a minimum initial portfolio size of \$5 million (amount lowered from \$10 million on 7/1/2010). The Focused All Cap strategy requires that equity, equity-like securities, and cash represent a target of 90% of the portfolio value. If a portfolio does not have at least 90% of its value in these assets, the portfolio will be removed from the composite for the entire period and will be included in the composite again if its allocation is aligned with the above parameters for one full period. The composite was created in January 2007. Effective 7/1/2010, the composite was redefined to include taxable accounts which had previously been excluded. Effective 1/1/17 a model fee of 1.05% was used to calculate net returns.

Investment Management Fees – The investment management fees that apply to the portfolio composites are as follows: Equity Accounts which include the ARS Core Equity, ARS Focused All Cap, ARS Focused Small Cap & ARS Tactical Asset Allocation (ARS Balanced Strategy & ARS Equity Strategy) – 1.25% per annum of the first \$1 million and 1.00% per annum of the next \$20 million and to be discussed thereafter. The management fees for certain clients may differ from the above schedule because those clients’ fees are grandfathered or because of relationships with the applicant or other accounts. For institutional accounts, certain asset or fee minimums may apply.

Internal Dispersion – Internal dispersion is calculated using the asset-weighted standard deviation of annual returns of all portfolios in the composite for the entire year. Dispersion is not presented for periods less than one year or when there were five or fewer portfolios in the composite for the entire year. The Annualized 3-Year Standard Deviation is not presented for composites with less than a 36-month return. Also, the standard deviation is not presented and not is required, for periods prior to 2011.

Basis of Presentation – Rates of return presented are computed using a time-weighted rate of return methodology that adjusts for external cash flows. Total rate of return calculations includes realized and unrealized gains and losses, plus income, and cash and cash equivalents held. Gross performance returns are presented after transaction costs and before investment management fees and all operating costs. Net performance returns are presented after transaction costs and actual investment management fees and before all operating costs. However, gross performance for the ARS Core Equity Composite is presented as gross and net performance is actual investment management fees and after all operating costs and the gross returns are presented as supplemental information. Operating costs include custodian and administrative fees. Additional information regarding policies for valuating portfolios, calculating performance, and preparing compliant presentations are available upon request. Performance results for periods of less than a year are not annualized.

Performance returns are in U.S. Dollars. Periodic returns are geometrically linked. The composite rates of return have been calculated within ARS Investment Partners, LLC. A complete list and description of the composites managed by ARS is available upon request.
